

# "Adaptation: Taking action"

Climate Chance Europe Africa Summit 2025

Call for contributions to the Pitch Corner

#SCCEA2025

# Climate Chance is launching a campaign calling for contributions of best practices on adaptation in Europe and on Europe/Africa decentralised cooperation on adaptation

**We are calling on you, European and African actors committed to adapting to climate change in Europe and to decentralised cooperation between Europe and Africa for adaptation, to share your initiatives and innovations at the #SCCEA2025.**

- The aim of this call for contributions is to identify innovative best practices that can be replicated on the largest possible scale in Europe and Africa
- If you are a local authority, a company, an association, a trade union, a scientific body, a youth or women's organisation, a farmers' organisation, an educator or a citizen, submit your climate action project and join our global climate action community!

# Why take part in the Climate Chance Europe Africa 2025 call for contributions campaign?

- Reinforce the mobilisation of multiple players in the various sectors of climate action, more specifically **adaptation to climate change or Europe-Africa decentralised cooperation for adaptation**, by sharing your experience, your successes and the difficulties encountered.
- Enrich the programme of the Climate Chance Europe Africa 2025 Summit with initiatives that will have the **opportunity to be presented in the Pitch Corner, at the heart of the event. Gain visibility by presenting your projects.**
- Feed into our [Cartography for action](#) and highlight the remarkable initiatives taking place in Europe and Africa.

## What is the Pitch Corner ?

The Pitch Corner is a **unique space, right at the heart of the event**, where project leaders can present their project for 15 minutes as part of the Climate Chance Europe Africa 2025 Summit taking place in Marseille, Palais du Pharo, on **31 March and 1 April**.

# What are the criteria for applying?

1

**Be a non-state actor:** local authorities and communities, businesses, associations, trade unions, professional federations, non-governmental organisations, scientific bodies, donors, citizens committed to climate action in Europe or Africa, youth and women's organisations, farmers' organisations.

2

Carrying out a project whose actions take place in Europe or Africa.

3

Have an ongoing project on one of the following themes, related to **adaptation to climate change**:

- Agriculture - Food
- Biodiversity - Forestry - Land use
- Water
- Education - Training
- Renewable energy
- Climate financing
- International cooperation
- Housing - Sustainable construction
- Mobility - Sustainable transport
- Oceans - Coastline
- Planning - Regional development - Sustainable cities
- Multi-level governance

**Particular attention is paid to innovative and replicable projects**

## You can submit your project until 14 February!

**Contributions should be submitted by following this link before 14 February, 2025:**

**<https://www.climate-chance.org/en/add-project/>**

- The selected projects will be contacted by the Climate Chance team at the end of February - beginning of March 2025.
- A contribution not selected for the Pitch Corner may appear on the Cartography of Climate Action on Climate Chance's website.
- The selected contributors authorise Climate Chance to communicate their work, in compliance with copyright law, following the summit.
- Those whose contributions have not been selected will be informed by email.

Please note: contributors are responsible for registering for the Climate Chance Europe Africa Summit 2025 and for their travel and accommodation expenses.
